

Manufacturing Advisor

Dorset

Package circa £45k plus benefits

SWMAS plays a key role in providing tailored advice to manufacturing businesses throughout England. Our aim is to help manufacturing businesses of all sizes develop and prosper - with a specific focus on improving the competitiveness and growth of SME's.

Joining our team of manufacturing specialists, you will work closely with manufacturers to provide practical support to improve their productivity and competitiveness through the delivery of specialist support programmes focusing on strategy, innovation and operational improvements. These programmes will include diagnostic reviews, consultancy advice and the development and implementation of improvement plans, backed by funding, training and networking events.

You will need to have extensive experience and understanding of manufacturing management and be qualified to degree/HNC/HND level within a relevant technical, engineering or business discipline. A successful track record of delivering business advice and developing solutions through effective client management will also be important.

Highly commercial with a comprehensive understanding of business finance, operations and marketing, you will also have the ability to build effective relationships with clients. Excellent presentation and communication skills and an attention to detail will also be essential, coupled with strong analytical and organisational skills.

This is an excellent opportunity to add real value to the development and growth of UK manufacturing whilst being part of a thriving and rewarding business.

If you feel you can improve effectiveness and build sustainable growth for all, please email your CV to our consultant: andrewsavage@resource4.co.uk

Closing date: 5th March 2012
